Fine-Art Portraits

CLASS DESCRIPTION

A Manual For Taking A Photo Series From Concept To Creation.

Creating a great photo for a client is one thing - but turning your passion and ideas into a series that is shared, shown, and sold is a whole different business. If you do it right, you'll be shooting what you love all the time. Learn how to choose which ideas to create, how to turn your concept into a production, and steps to getting your work seen and even sold in Fine Art Photography: A Complete Guide with Award-Winning Photographer, Brooke Shaden.

This is an all-inclusive workshop that provides the tools you need to run a successful and creative business as a fine art photographer. You'll learn creative exercises to find and develop your ideas, how to create an original narrative, how to produce your own photo series, post production techniques and skills for compositing and retouching, how to write about your work, ways to pitch to galleries and agents, and how to print your pieces so they look like art.

This workshop will take you on location with Brooke as she creates a photo series from scratch. She'll walk through every step for her photo shoots including set design and location scouting, she'll cover techniques in the field for capturing your artistic vision, post-production and compositing techniques, as well as printing and framing essentials.

She'll round out this experience by discussing all of the details that will help make your career a success like licensing, commissions, artists statements, social media plans, gallery prep, and pricing your work.

This comprehensive course is a powerful look into the world of fine art photography led by one of the world's most talented photographers, Brooke Shaden. Included with purchase is exclusive access to bonus material that gives exercises and downloads for all of the lessons.

Nic Wae

surfnic

Hi everyone. Are you guys doing aerial photography / drone photography? I would be interested to know your experiences (legal issues, insurance, acceptance, where/when to fly). I have no experience but am intrigued by it... Cheers. Nic
