The photos released by the WH tonight of the president working at Walter Reed were taken 10 minutes apart at 5:25:59 pm and 5:35:40 pm ET Saturday, according to the EXIF data embedded in both @AP wire postings that were shared by the White House this evening.

@garyhe

for all you forensic scientists out there going for that easy retweet clout: pieces of paper being hit by light from above often end up washed out if you're exposing the photo for the rest of the scene. and for the record, trump did sign three proclamations yesterday.

Photo Gear Flea Market - Foto Flohmarkt

CHaya Photo

Over the years most of us want to buy new gear and more often than we would like we leave some of the previous equipment collecting dust in a cabinet. Let's put those poor things back to activity, clear some space for new equipment, meet great people and still make some money...
