New Shiny Gear Coming

These lenses are likely next in the pipeline:

- Canon RF 70-200mm f/4L IS USM
External zoom, extremely small size. I'm told it's about the size of a coke can.
- Canon RF 50mm f/1.8 STM
This lens will be better optically and in build quality than the EF version.

These lenses are likely being announced in 2021:

The TS-R lenses are "groundbreaking" autofocus tilt-shift lenses for the RF mount.

- Canon TS-R 14mm f/4L
- Canon TS-R 24mm f/3.5L
- Canon RF 10-24mm f/4L USM
- Canon RF 14-35mm f/4L IS USM
- Canon RF 24mm f/1.8 IS STM Macro
- Canon RF 35mm f/1.2L USM
- Canon RF 100mm f/2.8L Macro IS USM
- Canon RF 135mm f/1.4L USM
- Canon RF 100-400mm f/5.6-7.1 IS USM
- Canon RF 400mm f/2.8L IS USM
- Canon RF 500mm f/4L IS USM
- Canon RF 600mm f/4L IS USM
- Canon RF 800mm f/5.6L IS USM
- Canon RF 1200mm f/8L IS USM.

Better Cut Outs

The screenshot shows the Adobe Photoshop workspace. The main canvas displays a portrait of a woman with a brown leather jacket. A white layer mask is applied to the image. The Properties panel on the right shows the 'Layer Mask' settings, including Density (100%) and Feather (0.0 px). The Layers panel shows 'Layer 0' with the mask and 'Color Fill 1'. The video player interface at the bottom indicates the video is at 6:00 / 15:55, with the title '02 - Remove Edge Halos or Fringing'.

Photo Gear Flea Market - Foto Flohmarkt

CHaya Photo

Over the years most of us want to buy new gear and more often than we would like we leave some of the previous equipment collecting dust in a cabinet. Let's put those poor things back to activity, clear some space for new equipment, meet great people and still make some money...

Easy Tools

With good explanation and tutorials

The screenshot displays a software interface with three tool tutorials. Each tutorial includes a small image demonstrating the tool's use, a title, a brief description, and a 'Learn how' link.

- Perfect Eraser (Q)**: The image shows a snowy mountain landscape with a red person in the foreground. The text says: "Paint over distractions you want to remove, such as people, signs or blemishes." [Learn how](#)
- Retouch Brush (R)**: The image is a close-up of a woman's face with a small white blemish on her cheek. The text says: "Paint over small blemishes like dust or acne. Reduce the opacity to blend your retouching." [Learn how](#)
- Clone Stamp Tool (Shift+S)**: The image shows a winding road in a rural landscape. The text says: "Copy from one area to another. Perfect for removing distractions on patterned backgrounds. Remember you need to select a source area first by optionclicking on it." [Learn how](#)

Who Is It For?

- Portrait photographers, of course
- Looking for fast edits
- Like automated solutions (with some control)
or
- Don't know how or don't want to spend time to edit portraits

Evaluation

- +
 - Easy to use with a simple interface
 - Can achieve great results
 - HUGE Time saver
 - Manual controls for almost everything
 - Phenomenal easy edits
 - Face features (including eye size)
 - Face slimming
- - Easy to exaggerate, but not “radioactive eyes”
 - Face x body skin differences
 - Auto recognition for groups was hit and miss
 - May edit glasses and other objects

If you download a trial version or decide to buy, please use my link:
