Canon Patents Smartphone Camera Attachment with Multiple Lenses

A new patent has been unearthed that reveals yet another strange camera design from the folks at Canon. Following in the footsteps of the “clippable” [IVY REC](#) and [monocular Powershot Zoom](#) camera, this particular creation would be a smartphone camera attachment that lets you swap in various lenses.

Wedding and event photographer [Taylor Jackson](#) has been shooting with the original Nikon Z6 pretty much since it came to market. So when the [Nikon Z6 II](#) came out promising improved autofocus, TWO image processors, better video, and a battery grip, he jumped on it.

@lizzie_ryder kindly made a petition, please swipe up to sign and support Instagram censoring black bodies/black fat bodies! This is important, don't let what I've been fighting for be driven in silence and forgotten about because of plus sized white women co opting a campaign and centring themselves. This is no joke!! This is my life first being censored by Instagram and now being silenced by white tears. Link in my story and my bio! ♥ (If context is needed please see my highlights).

After coming under fire for its inconsistencies with how it handled photos of plus-sized model [Nyome Nicholas-Williams](#) on its platform, Instagram will update its policy on nudity.

Photo Gear Flea Market - Foto Flohmarkt

CHaya Photo

Over the years most of us want to buy new gear and more often than we would like we leave some of the previous equipment collecting dust in a cabinet. Let's put those poor things back to activity, clear some space for new equipment, meet great people and still make some money...

Hi Cesar, in terms of topic, something came to my mind recently: Just wanting to set up an internet site with some of my pics etc., and noticed that there is lots of stuff out there, like WIX, Pixpa etc. Would like to discuss the experiences you and the whole group has made with some of the tools. Or even another approach, like building it yourself from scratch ;-) Like costs, which cost plan to use, ease of use, which tools are available for photographers etc.

This is looking great. I think we can move on with this concept.

Anno West
I agree. Let's move it forward.

This part feels a little fast. I think we can make it slower.

00:08:32

Send Blake
Again, this feels too fast. C it down?

Anno West
Fixed both of those.
