## Why Topaz Labs DeNoise AI and Sharpen AI Blew My Mind

For the past few years, I've been content with keeping my entire photo editing worldview pegged to the Adobe ecosystem. Anything that Lightroom couldn't handle, or that required more refined content-aware heavy-lifting, was offloaded to Photoshop. And that's the way things went for a very long time.

Photographer Garðar Ólafsson — and founder of the Iceland-based stock agency [Airstock](#) — recently took his DJI drone to the skies above the erupting Geldingadalir volcano and may have gotten a little bit too close.

### Competition categories

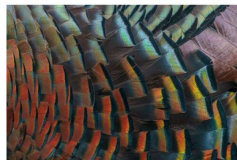

#### Best Portrait

An image that best captures the character of the subject bird and its distinctive features. We are looking for images that include lots of detail, captured in a classic pose or showing the animal's features.

#### Birds in the Environment

This category focuses on photos that best demonstrate the relationship between a bird and its habitat. Examples include a swan on a lake at dawn, a dipper on a rock beside a waterfall, or a bald eagle flying through the mountains.

#### Attention to Detail

This category looks at the smaller details of a bird. This could be a close-up headshot, or a macro image of feather details. The judges will look for an image that shares the more intimate details of a bird that we don't get to appreciate from a wider view.

#### Bird Behaviour

We're looking for images that best depict a behaviour of a bird. This might be the lekking display of a black grouse, the courtship of a great crested grebe, or a singing robin.

#### Portfolio Award

For this award, you can enter up to 6 images as a collection. Judges will be looking for a selection of images that show extensive technical control and creativity of the photographer.

# Hair Flips CHallenge?

The screenshot shows the Adobe Bridge interface for a project named 'Hair Flip'. The main preview window displays a black and white photograph of a woman with long, dark hair blowing in the wind. The left sidebar contains a 'Filter' panel with options for 'Labels' (No Label (26), Select (15)), 'File Type' (Folder (1), JPEG File (50)), and 'Keywords'. Below this is an 'Author Name' and 'Date Created' section with a list of dates. In the bottom left corner of the preview area, there is a logo for 'LIVE! THE LAST FRAME' with a target icon. The right sidebar shows a 'Content' grid of 15 image thumbnails, each with a filename below it, such as 'caroline02217\_0106.jpg', 'cesey08041\_0135.jpg', 'taylor\_02.jpg', 'kathryn08147\_0341.jpg', 'kwan121312\_0002.jpg', 'ksenia102908\_0013.jpg', 'lily041613\_0337.jpg', 'lily041713\_0220.jpg', 'marissa020118\_0113.jpg', 'marissa072001\_0172.jpg', 'taylor060113\_0012.jpg', 'taylor062112\_0358.jpg', 'taylor110311\_0261.jpg', 'taylor110311\_0373.jpg', and 'tsui070109\_0016.jpg'.
