Pro Tips

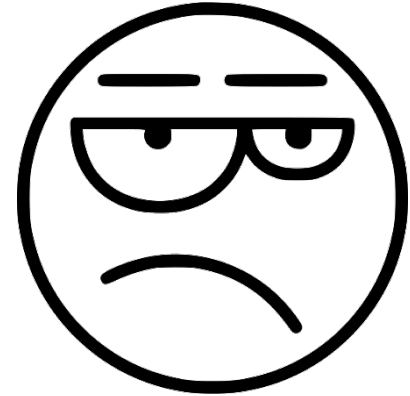

Filters

Why Filters

Shield

- UV Protector
- Mostly against cracking/scratching
- Quality matters
- Personal choice

Colours

- Physical x Post
 - Not for everything

Less Reflections

- Deep blues/skies
- Eliminates some reflections

Reducing Light

- long exposures during the day
- Equalize exposure
- Remove people from busy places

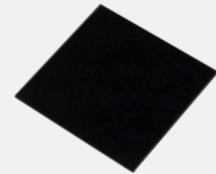

By greatly extending exposure times the **Big Stopper** blurs anything that is moving in your image, for example clouds, waterfalls, rivers, and the sea.

The filter can also be used on cityscapes to blur people or on roads and motorways to blur traffic.

Big Stopper

10 stops

The Big Stopper
Made from high quality
optical glass.

Think Before You Buy

- 82 mm – future proof
 - Step up rings
- Square format (100 x 100mm)

Good Memories from 2020
Inspiration: Interviewing Photo, Interviewing
Our 2020 as a Group lives all these year as 2020 can become good memories behind, and that was the idea behind our 2020 magazine. During the year we met in person or virtually and put our creative juices to work, rendering some great images and food memories. The gorgeous pages show a little of...
