# Photos Contain 'Layers of Mind'

Photographs contain “layers of mind.” That’s according to a new study, which found that people are considered to be “less real” and have “less mind” when they’re seen in photos of photos rather than photos themselves.

The study was led by psychology professor Dr. Alan Kingstone of the University of British Columbia in Canada, and it was published this week in Proceedings of the National Academy of Sciences.

# Texas Tourist Arrested After Crashing a Drone into the World Trade Center

A Texas tourist was arrested after he accidentally crashed a drone into 7 World Trade Center, which triggered a massive city and federal law enforcement response.
