Don't Choose the Best Camera and Lenses, Choose What Suits You Best

A Small Camera Can Be a Solution

CaptureOne Perspective Correction

This Capture One 22 15.2.0 update is free to existing users and brings a new set of controls for perspective adjustments with new auto settings which bring it in line with Lightroom's tools.

LR Adaptive ISO Preset

Why Use an ISO Adaptive Preset?

Noise Reduction Vs ISO

Consider the default adjustment that is applied to your image on import: It's typically an Adobe Color profile with a one-size-fits-all set of sharpening and noise reduction values. For base ISO shots, this applies an unnecessary amount of color noise reduction, and it may not be aggressive enough in sharpening. Meanwhile, on high ISO shots, you'll often want to apply more noise reduction than the default, especially luminance noise.

AI Magic

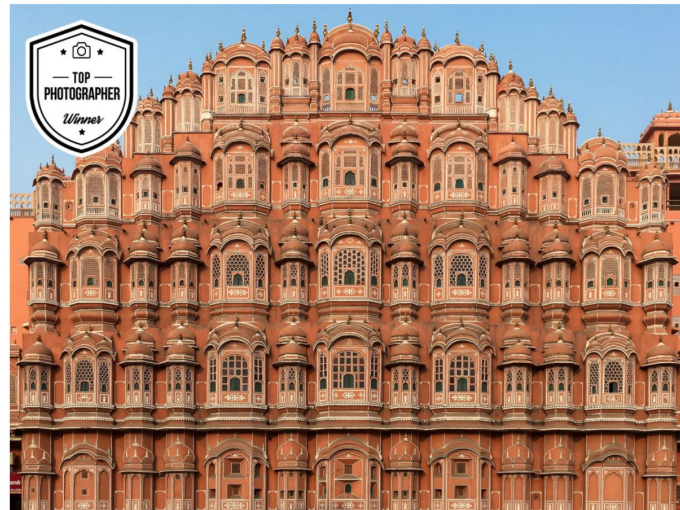

AI Creates Amazing Virtual San Francisco Using Millions of Photos

Recent developments in artificial intelligence (AI) allow 3D scenes to be generated from just a handful of photos, but Waymo researchers pushed the idea to the extremes and have successfully recreated a 3D model of San Francisco from 2.8 million input photos.

Über uns

Be inspired | Be Creative | Be Visual

Wir sind ein Fotografenteam und sind viel viel über Kamera-
unterricht. Bei unseren fotografischen Schritten lassen wir
uns nicht ganz hingucken.
Wir sind im Jahr 2014 ins Leben gekommen, die uns zur
zeit am liebsten.
So ist das schönste Fotoalbum unsere einzige
Freizeitaktivität, die wir uns erlauben. Wir sind
bestimmte Ziele verfolgen.

Anna-Hee

Bilder mit Menschen, die Geschichte dazu und die Frage, wie
ein Bild entstehen. Inzwischen sind wir schon ein
Mal selber Bilder zu machen. Einmal im Jahr werden wir ein
Jahre. Heute, nach unserem ersten Jahr, sind wir
bestimmten durch die Fotografenvereinigungen.
Geschichten sind, fotografieren, umgeben und viele
Erfahrungen gemacht. Haben wir die Kamera immer in der
Hand, um sie zu benutzen, um sie zu benutzen.
Fotografieren ist ein Hobby, man sollte sie zu
bestimmten Zielen verfolgen, wenn sie möglich.

Daniel

Als Ausbilder macht er eine Sparte, die Technik, Medien
und Fotografie in einem anderen Projekt zu unterstützen.
Dabei macht nicht das, sondern Fotografie im Vordergrund. Das Ziel
ist, dass die Bild zum Bild und die Bilder möglich sind, um sie im
Vorhandensein der Kamera zu fotografieren.
